

# SUMMER SCIENCE CAMP SCHEDULE

9:00 AM – 2:00 PM

Ages: 8-14

## WEEK 1

June 1-6

### Gene Genius Lab

Explore DNA, extract it from fruit, build models, and design your own imaginary creature using genetics!

## WEEK 2

June 8-12

### Future Neuroscientist Lab

Meet your brain! Explore anatomy, neuron communication, memory, and present a mini research project.

## WEEK 3

June 15-19

### Junior Chemist Lab

Mix, test, and experiment! Make slime, launch rockets, and explore color-changing chemical reactions.

## WEEK 4

June 22-26

### Junior Cell Explorer Lab

Become a junior biologist! Understand cell structure, osmosis, and how cells make energy.

### Tuition Includes:

- ✓ All lab materials
- ✓ Research supplies
- ✓ Parent presentation
- ✓ Lab notebook
- ✓ Certification of completion
- ✓ Hands-on lab kits
- ✓ Special gift (new campers)
